Pet Species: Dog  Cat  Pet Sex: Male  Female

I, being of legal age and owner of the above animal, have the authority to grant Pet Pal Veterinary Clinic and its agents my consent, and I hereby give such consent to receive, prescribe, and/or perform surgery upon the animal named above.

I understand that the risk of injury or death, although low, is always present just as it is for humans who undergo surgery. **Carefully read before signing your name below.**

- If, in the course of treatment, a condition is discovered which requires medical attention or an additional procedure or medication, including but not limited to hernia repair or administration of IV fluids, the attending veterinarian may, in his absolute discretion, treat this condition. I consent to this treatment and agree to pay additional charges.
- Pet must be clean and flea free for a safer and healthier surgical experience. If a bath or flea treatment is needed, additional costs may be incurred.
- I understand that it is possible Pet Pal Veterinary Clinic may not perform a physical examination before surgery is performed. (unless requested by owner)
- I understand that Pet Pal Veterinary Clinic has the right to refuse service to any animal to whom our veterinarian deems such service a health risk.
- I certify that my animal is in good health and has not had any food or water after 10 pm the night before surgery.
- I understand that some factors significantly increase surgical risk, including but not limited to females that are pregnant or in heat, and diseases such as Feline Leukemia, Feline AIDS, and heartworms.
- I understand that if I don't retrieve my pet at the agreed upon time, Pet Pal Veterinary Clinic will consider the pet abandoned. After 24 hours, Pet Pal will exercise its right to dispose of the animal as deemed just and proper, and as allowed by the State of Florida. I understand that once the pet has been considered abandoned, I relinquish all ownership rights, and will be held responsible for any and all medical costs, including boarding expenses of no less than \$\_\_\_\_\_ per night.

**HEARTWORMS** are transmitted by mosquitoes and are a serious health concern for dogs. If a monthly preventative is not given and your dog contracts heartworms, they can be deadly. We strongly recommend that your pet be tested for heartworms and prescribed a monthly preventative. Please inquire about current price.

**FELINE LEUKEMIA (FeLv) and FELINE AIDS (FIV)** are deadly viruses that are transmitted from cat to cat. Your cat can be tested for these diseases today and receive a Feline Leukemia vaccine. Please inquire about current price.

**ELIZABETHAN COLLARS** are used to prevent your animal from chewing, licking and pulling surgical sutures. Please inquire about current price.

Check to DECLINE a heartworm test

Check to DECLINE the FELV/FIV test

Check to DECLINE an Elizabethan Collar against medical advice
